

RABII NOUHAILA

Engineering Student – Artificial Intelligence, Machine Learning & Full-Stack Development
Casablanca, Morocco | rabii.nouhaila@ensam-casa.ma | +212 707 081 873 | LinkedIn | GitHub

PROFILE

Engineering student at ENSAM Casablanca with a strong passion for Artificial Intelligence, Machine Learning, and intelligent software development. Experienced in designing LLM-powered applications, AI workflow automation, Natural Language Processing (NLP), and full-stack development. Winner of international hackathons and competitions, with a particular interest in building robust, scalable, and production-ready AI systems.

AWARDS & COMPETITIONS

- 1st Place – n8n Hackathon** June 2026
Developed an AI-powered intelligent automation system, awarded Best Project of the Hackathon.
- Guinness World Records™ – Largest Online Artificial Intelligence Video Lesson** 2026
Participated in the Kanz AI Hackathon, contributing to the Guinness World Record for the Largest Online Artificial Intelligence Video Lesson (14,075 participants). Built a functional AI application during an intensive seven-day program.
- 3rd Place – Arabic NLP School 2026 (EACL)** March 2026
International Natural Language Processing research competition organized as part of EACL 2026.

EDUCATION

- National Higher School of Arts and Crafts (ENSAM), Casablanca** 2026 – 2029
Engineering Degree – Cybersecurity & Cloud Computing
- National Higher School of Arts and Crafts (ENSAM), Casablanca** 2024 – 2026
Integrated Preparatory Engineering Program
- Moulay Youssef High School** 2021 – 2024
French Option Scientific Baccalaureate (Physics) — Highest Honors, 18.56/20

PROJECTS

- Safqa – AI-Powered Vendor Due Diligence Platform**
Compliance automation platform leveraging Large Language Models for document analysis, supplier risk assessment, and AI-assisted decision-making, with Human-in-the-Loop validation for sensitive cases.
- ODC Pulse – Learner Analytics & Dropout Prevention Platform**
Platform centralizing learner data, integrating AI models to identify dropout risks, automate notifications using n8n, and generate decision-support dashboards.
- MyArena – Intelligent Stadium Incident Reporting Platform**
Mobile application enabling real-time geolocated incident reporting and improving coordination between emergency response teams.

TECHNICAL SKILLS

- Artificial Intelligence:** Supervised & Unsupervised Machine Learning, Deep Learning, NLP, LLMs, Prompt Engineering, Model Evaluation
- Development:** Python, C, FastAPI, HTML/CSS, REST APIs, Git, GitHub
- Cloud & Deployment:** Oracle Cloud Infrastructure, Docker, CI/CD, n8n
- Tools:** Linux/Unix, Workflow Automation, Backend Architecture

EXPERIENCE & PROGRAMS

- Intern – Provincial Department of Housing and Urban Policy, Khouribga** July 2025
Digitized administrative documents and provided IT support to improve internal workflows.
- Vice President – Enactus ENSAM Casablanca** 2025 – 2026
Coordinated multidisciplinary teams on technology-driven and social entrepreneurship projects.
- Aspire Leaders Program – Cohort 4** Aug. – Oct. 2025
International leadership and mentorship program focused on professional development.
- McKinsey Forward Program** 2025
Completed professional training in problem solving, structured thinking, and workplace skills.

CERTIFICATIONS

- IBM Generative AI Engineering Professional Certificate
Machine Learning Specialization – DeepLearning.AI & Stanford University
AI Foundations Associate – Oracle Cloud Infrastructure
AI Engineer for Developers Associate – DataCamp
Meta Full-Stack Developer Professional Certificate
